

Lyrics by MiA MiU

© 2025 MiA MiU

I Have It All (2025)

I have it all, yess

No matter how long

It takes to find home

I have it all

No matter what...

High stakes, low places

High expectations

Nothing to be proved though

Full liberation

Life is a game

I play for my fame

I'm shameless in trusting myself

That's part of the game

My aim is to improve

But I'm reluctant to change

I'm done, yess I'm done

With explaining myself

I came home late

Or maybe, right on time

I guess...

Chasing money

Is like playing chess

I no longer need to chase...

I don't chase...

I choose love

I take time

I sleep long

I think fast

I'm not lost

I don't care what you say

About me and my friends

And if I don't want

To see my friends and my family

I also don't care

What you think about me

And no matter what...

I have it all

Expansion (2025)

Now we just do what queens do:

Create, love, expand, rest, repeat

Create, love, expand, rest, repeat

I'm in vibrations

That don't need explanations

It's divine time —
My past gave birth to this shine
I'm spellbound
— my diva mood is all around
I've arrived in a sacred space
It knows no time, no place
It needs no definition
I'm free from ambition
Divine vibes
My goddess place — is here, now
Don't mess around
I'm here to expand
I'm absolutely new
I don't remember the past...
Do you?
Now we just do what queens do:
Create, love, expand, rest, repeat
Create, love, expand, rest, repeat

Extraordinary (2025)

At extra cost I got to the point
Where ordinary's death felt natural
The "extra" was trying to fit in—
In order to grasp some reality
I met people who thought I was mad
They loved me on the surface
For my body's line—
But abandoned my expansive Self

So I mingled a bit on earth
Till I found my home: myself
Beyond words, outside the box
Connected with my royalty
Divine energy, diva heart
Disconnected from mediocre
Trusting the only Goddess

Awakening time: I'm not alone
I see you in the frame—
Our frequencies, the same
Extraordinary days unfold
You are here, next to me
You believe in my dreams
I'm in love—with me
With you, and the queendom

Universal truths discovered.
No more questions so much power...
I'm electrifying
And you feel my fire!
That's extraordinary!

Ecstasy (2025)

Never mind me—mind your madness
I rule here—fuck the sadness
I remove all your kindness

'Cause this world needs expansion—

Standing up for what we love

Punchy vibe over politeness

I've reached the highest level of ecstasy

Easy.

I'm here—just speaking from the highest point

Don't be afraid—I'm not your enemy

Never mind me—mind your madness

I'm happy in my realm

I have no shame—so you'll get bored

No one to criticise

My ecstasy is my trip, out—

From where I was born to where the throne is

And the journey? A sacred spell

I got this voice to channel love

Lioness—I am

Loneliness—I am not

I'm high

I am

Ecstasy

Don't Call Me Back — Call Me a Timeline Silk Master (2025)

This is the bank of becoming

Finally cashing my cheques

My silk robe has pockets
For golden prophecy
Let's keep this thread running
I don't owe you anything
Not even the thousands
You lent me for my silky tricks

People wake up suddenly
And call me back
But they don't call my presence
—they try to get their wasted time, back
Wasted time on dwelling too long
Losing energy for trying
To hold on to control
They call back wasted crumbs
Just to feel they're in control...
That they don't and will not have
Because we cannot control
We can be and shine
And if we don't
We lose time and get old
I walk out of timelines
Like silk robes on my skin
Unbothered, uncaged
Forecasting a new age
I'm faster than Swiss banks
Luxury without price tags
Confidence without receipts

Power that doesn't shout
— it transmits
Welcome to the era where
My vibe signs the deal
Sinking in the silk
And the only limit
Is how much silk
I can carry on my tanned
By the Bahamas Sun, skin

Quantum Leap (2025)

From subconscious echoes
to conscious creation—
the day I chose to dream forward
was the day of liberation

The song, the silk, the call
This isn't a bag. It's a code
Truth, silked into sound
It came through me for a reason—
or maybe just the summer season...

I don't trade for cash—
I operate on divine maps
My self-worth is my wealth
I once said:
"I move faster than banks."
And I meant it

Not for the numbers
but for the frequencies

Before the world caught up
I was already firing energy
across timelines—
investing in futures with funds
I didn't yet have
Walking like wealth
before wealth had my name

This isn't rags-to-riches
It's a frequency flip
A quantum transfer leap
The silent luxury
of already being there
I transcend—
quietly, with grace
Meet me when you're ready—
but by then,
I might be somewhere else

Boundless (2025)

Find the one who understands
Why we wait for pain to change?
Find the one who speaks their mind
Why do we need to be defined?
Peeling away the layers of wasted time

Trying to bury doubts deep down

A never-ending story

Repeating our history

A never-ending story

Repeating our history

I'm not here to be defined

I'm not this, I'm not that

No-definition

Free from ambitions

Call me as you wish

But that's not me

An ever-evolving path has no names

It knows no time, no place

It flows beyond words

There's no definition

To describe who we are

Because if we're free

Then we are not defined

Let boundless love open your heart

Time becomes irrelevant

I Came Home Late (2025)

I'm coming home

Even if I'm late

I'm coming home

I don't care how long it takes

I'm coming home

I came home late

But I'm finally home

I'm leaving, but I'm coming home

Even if I'm late

I'm coming home

I'm grateful for the time we had

But you never saw my truth

I got lost, chasing love

I took a detour

I'm coming home

Even if I'm late

I'm coming home

I don't care how long it takes

I'm coming home

I came home late

But I'm finally home

The time we had was good

In so many ways

I hope I've learned some lessons

So I can rest with more blessings

I can rest with more blessings

No more stops at someone else's door

I'm whole, and I have my own home

I thought there was wisdom to find

So I lingered, hoping

It wasn't wasted time

But now it feels like it was too much
Holding onto imperfections
Tolerating the unexpected
My patience has its limits

Be well, be blessed
And please forget me soon
So your thoughts won't cloud my sun
I'm coming home
Even if I'm late

No Shit, It's Silk! (2025)

I trust my pace, I honour my path
Each step I take is timed by the divine
Abundance flows not from doing more
But from being more of who I am
I flow.
Slow.
Slow down —
My pace shapes the timeline
I move.
I stop.
Golden silk touches my spine
Nothing can stop me
Nothing can misalign
Can I take my time back?
All the time I spent in someone else's shit —
Hoping it had the potential of raw, rare silk

But now I'm fine, silk woven into panties

I don't even wear. I don't like clothes —

Do you find it rare?

I hate my ancestor's line

They used me as a tank, a vessel

But I'm not here to fix their mess

I rest into my goddessness

Still —

I reclaim all I did not feel

All I will not feel

Compressed or free?

I'm not in-between

I am either a whole or a hole

My path is whole, holy

Like raw silk — boundless

And mine

Try me.

You won't.

I've got sacred tasks

I breathe from my womb space

Sing from my soul

The new me isn't coming

She's already here

Now —

Let her lead. What a timing!

And when the old me returns

With her questions

I'll meet her with greatness and I'll say:

You are safe.

Poetess who Teases and Creates Theses (2025)

I'm truth—

whatever I say or do, it is me

Even when I'm unsure, or falling through

Not a mask, not a plan

not the echo of a man— just the breath

I carry in and the light I let begin

I am a poetess who teases

And creates theses

Chanel (2024)

Curious where I'm now,

Where I rock my vibes?

I don't need your money

I got my own flair

Growing on my own

I'm wild, I'm rare

No need for presents

I'm present enough

I'm wearing CHANEL

'Cause I wear good stuff

Your gifts are kind

But I'm a gift, I'm whole

I earn my own money

That's how I roll

Alive on my own

I'm a diva, watch me proud

I'm wearing CHANEL

I'm attracting the crowd!

Curious where I'm now,

Where I rock my vibes?

Dior (2024)

You must be joking...

You wanted me to be your girl

'Cause I looked fun and light

You said you didn't need a new friend

And asked me to stay overnight

But I didn't need another fuck

More is more, I am more

I can buy new clothes from Dior

Give me more or I'll be gone

'Cause I can buy new clothes from Dior myself

You must be joking...

5-star hotels don't impress

I need peace and love instead

You're not in my dreams or in my head

You're too small to be in my bed

I think we need some more

Time to ease the stress

More is more, I am more

I can buy new clothes from Dior

Give me more or I'll be gone

'Cause I can buy new clothes from Dior by myself

You must be joking...

You got me some clothes from Dior

But baby, get me a house instead

More is more, I am more

I can buy new clothes from Dior

Give me more or I'll be gone

'Cause I can buy new clothes from Dior myself

Hermès Jacket (2024)

Love me, touch me, sing my song

I said let's live together

I loved your Parisian house

I loved your Hermès jacket — sheer leather

Loneliness isn't fun

I can't run the long run

I loved your Hermès jacket — sheer leather

'Cause I'm not here for long

Let's live in the moment

No time for sadness

Love me, touch me, sing my song

I'm not here for long

Let's live in the moment

No time for sadness

Certainty is uncertain

You're not here for long

So why hold on

To things, old friendships, clothes?

I loved your Hermès jacket

You didn't want me to wear it

You wanted to save it

For when? Maybe for your funeral?

'Cause I'm not here for long

Let's live in the moment

No time for sadness

Love me, touch me, sing my song

You loved me like you love yourself—discreetly

But that's too discreet for me

Doubting self-worth

Hiding joy away for later

I'm shaking

Just at the thought of this behaviour

'Cause I'm not here for long

Let's live in the moment

No time for sadness

Love me, touch me, sing my song

Harmony Her Money (2024)

Am I ever gonna find my harmony?

Sinking deep into the abyss

Into a darkness where I can't see

Where is my harmony?

I hear voices

I smell death within me

Born an optimist

So where's my harmony?

Am I ever gonna find my harmony?

I see the light

Dreams coming true

But still, I can't see through

Chaos surrounds me

I can't breathe

Am I ever gonna find my harmony?

Love, light, laughter—

That's what I'm after

Peace, bliss, luxury

You, me, and the sun on my skin

Swimming Pool (2024)

Running away into the blue

I'm all blue in the swimming pool

I rest when I'm tired
When I'm feeling blue
I rest and reboot
in the swimming pool

Running away into the blue
I'm all blue in the swimming pool
I rest when I'm tired
When I'm feeling blue
I rest and reboot
in the swimming pool

Swimming in the swimming pool
my past dissolves
And I no longer remember
What I was running from
My memories float away
dissolving pain in chlorine
dissolving pain in chlorine

Running away into the blue
I'm all blue in the swimming pool
I rest when I'm tired
When I'm feeling blue
I rest and reboot
in the swimming pool

I'll dive into the pool

Rocking my diva vibe
Turning into a goddess
Sharing wisdom by the poolside

Swimming in the swimming pool
my past dissolves
And I no longer remember
What I was running from
My memories float away
dissolving pain in chlorine
dissolving pain in chlorine

Running away
Running away
Running away
Running away

I rest when I'm tired
When I'm feeling blue...
I rest and reboot
in the swimming pool

Just For Fun (2024)

Going backwards, 'just for fun'
Like those Instagram accounts
Recalling clear memories with you
Our evenings with an Eiffel Tower view

Going backwards, 'just for fun'
Enjoying our Parisian paradise
Was our love a paradise though?
Was it even love? I wouldn't say so

If only I were as light as those whimsical
Instagram accounts: 'just for fun'
Would you still chase me then
Like Jay Z chased Beyoncé?

I'm fun, just as you desired!
I'm funky, just as you fancied!
I'm the romance you waited for
I'm cool, you'll never get bored!

Going forward, just for fun
Bored with your serious face
I'm done! You won't catch me this way
As you chose French reserve
Over my sparkle and shine

I'm moving forward
Just for fun.

Mind Your Madness (2024)

Never mind me
Mind your madness
Holidays wrapped

In a glass of sadness
You sold me sunsets
But I asked for stars
Peaceful, yet haunted
—your shadows ran too far

Sleep well, baby, I've decided
Your kindness is a quiet storm
But I need a flame, not a form

Never mind me
Mind your madness
You said money's not your sadness
'Cause you had enough
For both of us
But I quickly realised
The money issue
That you had

Thinking you were easygoing
—well, not if it came to my soul
You offered comfort
But kept your cage
Fed me safety
But starved my stage

Never mind me
Mind your madness

Still, I rise

Mind your madness

Training Season (2024)

Training season isn't over

'Cause I'm ever-evolving

Could you wait a little longer

To see the results of my work?

You know I play with fire—

There's so much fire in me

You keep the fire burning

So please, let me complete this training...

I'm so dual, I need spiritual renewal

Your love elevates me

And I don't want it to end

It's not about money—

I can definitely earn it

I want to earn your love

But I'm still in the training...

Training season isn't over

'Cause I'm ever-evolving

Could you wait a little longer

To see the results of my work?

I've been in transition

From my old self to my greatness

You have been on a mission
To help me find happiness
Do you still accept submissions
To win your love and trust?
You said my training was over
But my test has not been passed...

Training season isn't over
'Cause I'm ever-evolving
Could you wait a little longer
To see the results of my work?

But if you truly want to leave
And, if you want me to leave
You should know this before you let me go...

Don't let me go
'Cause I've been in transition
From my old self to my greatness
And maybe (baby) I'm a slow learner
But I need your love to learn this

And maybe I need to learn my lesson twice
Or maybe more times, but I want to learn
And I'll do it well, this time...

Mood (2024)

I don't blame it on the weather

It's money that keeps my mood up

I can't get it together

When the money

Doesn't reach my account

I'm transitioning to the next level

When the money reaches my account

I value my wellbeing and pleasures

Yes, it's money that keeps my mood up

I've never loved anyone

More than my security

Sure, we could date, well

I could date your generosity

So, are you sure you can afford me?

Are you sure you're gonna pay for my flights

And my nights in 5-star delights?

And are you sure you're gonna pay for my taxis?

I hate commuting on the underground

So you better have enough for both of us...

I don't blame it on the weather

It's money that keeps my mood up

I can't get it together

When the money doesn't reach my account

I'm transitioning to the next level

When the money reaches my account

I value my wellbeing and pleasures
Yes, it's money what keeps my mood up

My daily food is my good mood
So, money is important
I have my routine
A weekly holiday and Chanel dress
If you know what I mean...
So, money is important

Working My Ace Off (2024)

If you ask me what I did today,
I could potentially say:
I was relaxing at the Chanel store
Trying new outfits
For my singing shows
I could also say I had a nice time
In an art gallery
And then a long run
Between some phone calls
And writing tasks
But all, in fact
Had a work background—
—Creating new songs
Images, ideas for life

So if you ask me what I did today
I'd confidently say:

I worked all day long
And after work, there's more work
And if you don't get it, asking:
Are you mad? Working 7 days a week
Long days, and at nights
I'd then confidently say:
No, I'm not mad
I've simply found my purpose in life
So I will follow it day and night
And I'll relax within my tasks

Love in Chlorine (2024)

If love's the solution
Why not adore me more?
With all your silence and my charisma
We could easily make it work

Pass me the keys to your suite
I'll dance my diva dance
If I'm too much for you though
Cool me down, I'll be nice

Shocked to see me again
in your Parisian suite
Hoping that I'd leave you
in your illusionary peace
But if your love faded out almost overnight
Maybe it wasn't love

and we weren't a good match

I'll dive into the blue

Washing away my bad mood

Starting anew, with my coolness

Being cool in the pool

I'll dive into the pool

rocking my diva vibe

Turning into a goddess

sharing wisdom by the poolside

Keep Your Shit Together (2024)

Just let it flow babe

Chase that wild pulse

Your tribe ain't numbered

Your time is quality time

I swear to you, babe

Own your skin

And watch the universe fold you in

Just let it flow babe

Face that mirror

You're a cosmic dance

No room for fear

Just let it flow babe

Feel the ones who vibe

Those who lift you up

Keep you alive

Blend in, stand out

What's the script today?

Everything you try

Feels like a playful display

Keep rolling, keep flowing

Keep doing what you're doing, babe

No time to fake

Now's the time to break

Keep rolling, keep flowing

Keep moving how you move, babe

No time to fake

Now's the time to break

So keep your shit together, babe

Life's a wild ride, not a cage

Flow like Grace Jones, rebel in style

Find your truth, and stay a while

Confused Muse (2024)

I'm no longer your muse

I see the truth, feel the bruise—

You've broken me down

Now I'm breaking loose

You've chosen someone else

Left me on the shelf

And I'm stuck in this mess

Confused by what's left of myself

You made me feel good

Like I was more

You gave me wings

But then you closed the door

You let me feel free

Like I could soar

But now I'm crashing down

I can't take it anymore

I need to leave your space

'Cause what you do, it burns like hell

But my heart's gotta heal

It's time for me to find something real

New Fashion (2024)

A new era's just begun

Letting go, I'm rising up

It's who I am, how I thrive

Love and light, my only guide

No more holding on to pain

I choose peace, I break the chain

In this world, I stand my ground

High aesthetics all around

Morning brings a fresh new start

No more doubting who I am
Power in each step I take
No more time for petty games

Afternoon, I walk with pride
Embracing truth, I never hide
Dive vibes, they carry me
Rest is key, I'm living free
No more naivety or fear
Only those who see me clear
Energy in every move
High aesthetics, always smooth

Morning brings a fresh new start
No more doubting who I am
Power in each step I take
No more time for petty games

Evening diva, bold and true
Owning every shade of blue
Join my tribe, come along
We're the free, we're the strong

New era, watch and see
It's all about the best of me
Letting go, I'm rising high
High aesthetics, touch the sky

Money (2023)

Money, more money, more money

Money, money, more money

Money, money, more money

Money, money, more money

More money

Money, money, more money

Money, money, more money

Money, money, more money

More money

Life is a game

I play for my fame

I am shameless

I fear less and less

I don't hesitate

to get what I want

I play with fire

I rest when I'm tired

Are you sure

you wanna pay my flights

you wanna pay my nights

in 5-star hotels

even though I say

I won't have time for you?

I won't spend nights with you

Are you sure
you wanna pay my loans
you wanna pay my credit cards?
I have more than one...
Even though
I will not meet your friends
and will attend dates
with other men?

Money, money, more money
Money, money, more money
Money, money, more money
More money

Money, money, more money
Money, money, more money
Money, money, more money
More money

Life is a game
I play for my fame
I am shameless
I fear less and less

I don't hesitate
to get what I want
I play with fire
I rest when I'm tired

Are you sure
you wanna pay my flights
you wanna pay my nights
in 5-star hotels
even though I say
I won't have time for you?
I won't spend nights with you
I'm busy with my life

Are you sure
you wanna pay my loans
you wanna pay my credit cards?
I have more than one...

How much money do you have?
How much money can you share?
How much? How much?
How much money do you have?
How much money can you give me?
Are you mad?
Mind your madness

Madness

Money

Money

Levitare Me (2022)

Levitate me!

How much time is left
for us to enjoy ourselves?
How long can we last
in this funny space?

The world is vast
Can you tell me your story?
I'm not in a rush
Let's levitate —
I'm not in a rush

Our days are long
Our nights are short
We can feel our pulse
Our hearts are warm

There's no fear in us
We are brave
We are strong
We are levitating

We are like two lovers
lost somewhere halfway
In the middle of nowhere
at the end of the end

Can you still hear my voice
singing this song...?

Coffee In (2021)

I know today I will find my way
To my happy place
Even when you're far away
Today, I'll find my way
I'm waking up slowly
I'm taking my time
I'm feeling so lonely
The city is dark
I don't even miss you
I'm taking my time
To make up my mind—
What's next? Where to? With whom? Etc.

I'm going to a café
To drink to my solitude
I am confused
There's so much choice
What to choose?

When I'm lost, I head to a café
For a double shot to clear the grey
It's not about the dopamine
Just the coffee's bitter taste
It levels out my life's bitterness

The darker the brew, the lighter my mess

I love coffee, I'm obsessed

Logically Loved (2022)

I was meditating on love

men, women, and roses

And the universe told me:

Put it in a love song

but don't waste time

thinking about love

Don't think too much about love

Don't think too much in general

Show me how to love

Show me how to breathe

I will give you all my love

if you only show me this —

Show me how to love...

Illogically different

We push each other away

Our love was an accident

We are victims of it

Trying to find the way out

We get lost even more

Nothing is certain now

Nothing will ever be known for sure...

Illogically perfect
We are trying to breathe
Suffocating each other
in a house full of dreams
We are so close — sometimes
only when we're apart
We are so far away
when we are face to face

Run(a)way (2022)

Run, run, run
Chase her style, chase his glam
Run, run, run, run, run
She is just in front of you
Look at him — he made it too
Where are you, you, you, you?
She is just in front of you
Look at him — he made it too

Run, run, run
Chase your goal, chase your time
Run, run, run, run, run
You are getting older,
And you're still not very far

Biohack your life, biohack your dreams
Biohack your love, biohack your sleep

And run, run, run...

Do you even know why you run?

Is it for yourself, for your dad, or for your mum?

Do you even know how it feels to slow down?

Have you double-checked if your soul is still alive?

Nothing can stop me now

Nananananana

Wakeup Makeup (2022)

Wake up, wake up

Look in the mirror — face your face

Makeup, makeup

You don't need any more coverage

Wake up, wake up

Raise your vibration

Wake up, wake up

Slow down, be patient

Face yourself, face your truth

Trust your love — nothing to lose

You can only gain

Life is a crazy game

If you're brave to live — you will live

If you're brave to love — you will love

If you're brave to dare —

You will dare to be you

Wake up and Go Go (2022)

Wake up, wake up

Another day of your fight

Makeup, makeup

Won't hide the tears in your eyes

A complicated upbringing

Left injuries in your heart

You're tired of feeling tired

You're tired of being sad

You're tired of your old friends —

Your old friends are tired of you

You're looking for a remedy

The pills won't give you serenity

Wake up, wake up

Another day of your bliss

Makeup, makeup

No longer needed — dismiss!

Your emotions mean all to you

In fact, they change nothing

Your fear manipulates you

In fact, it can do nothing

You're looking for a remedy

The pills don't give you serenity
Your emotions mean all to you
In fact, they change nothing

My Dress Hangs There (2022)

I'm opening my wardrobe
I'm wondering what to wear
There are not many possibilities
I'm gonna do the laundry
I want to wear some fresh clothes
I'm gonna do the laundry in a minute

I want to look beautiful
I want to look fashionable
I want to wear fresh, fresh, fresh clothes

I'm opening my wardrobe
I want to see some new clothes
Instead, I'm seeing all these boring clothes
I want to go shopping
I wanna buy some new clothes
I'm gonna go shopping in a minute

I want to look beautiful
I want to look fashionable
I want to wear new, new, new clothes

What are you wearing?

Is it your confidence?

What are you wearing?

Is it your insecurity?

What are you wearing?

Is it your generosity?

Are you ready to get undressed today?

Are you ready to just be yourself?

Cut Cat Kiss Keys (2022)

You are wise, so do I...

We're still young, we're so alive

We're in love — in our lives

What's the time?

It's your time

Please don't fool around

Thinking you have no more time

What is time? What is age?

Fuck it — time is fucking relative

Free yourself from the lies

The government provides

They don't know who you are

They're afraid of your charm

All those who don't trust themselves —

They can't see any chance to stay

Bold, beautiful, strong

They say: It's too late to be young

So they die while still alive

You are wise, so do I...

We're still young, we're so alive

We're in love — in our lives

What's the time?

It's your time

DISCOnected (2021)

Every time you look at me

My body wants to meet

You in your dance

Every time you look at me

My body wants to meet

You in your dance

Every time you open up

My body opens up and

I can feel your touch

Every time you open up

My body opens up and

I can feel your touch

Dance, please

Dance like the ocean

Deep and blue

You and I, like the waves

Dance

You and I, like the waves

Dance

You and I, like the waves

Breathe

Show me how deep

You can move me

Groove me

Show me how deep

You can love me

We can levitate together

We can meditate together

How much you love

Me, how much you love

Me, how much

Dance, please

Dance like the ocean

Deep and blue

Dance, please

Dance like the ocean

Deep and blue

Breathe me in

Dance me out,

Kiss me

Disco in Paris (2021)

I love dancing

I never go to clubs to dance

What I like is, a discreet disco

Discreet disco

Detached from the noise

Breathe me out to the floor

Detached from chaos

Touch your lips with mine

Dance, dance, dance, dance

Your body's mesmerising the dance floor

Dance, dance, dance, dance

Your gaze is mesmerising me

Dance, dance, dance, dance

Your body's mesmerising the dance floor

Dance, dance, dance, dance

Your gaze is mesmerising me

Disco in Paris

I feel your chill on my skin

Disco in Paris

You make me dance like crazy

Dance, dance, dance, dance

Your body's mesmerising the dance floor

Disco in Paris

You are mesmerising me

I saw her silhouette
In the sunset's light that night
Her lips were moving
With the ocean waves
I knew I wanted to kiss her
She had this peaceful energy
Yet, fire in the eyes
Her curls were dancing
With the wind that night
And I followed her
Straight to Paris

Disco in Tokyo (2021)

Tik tok tik Tokyo
Don't check the time
When you're in Tokyo
Tik tok tik Tokyo
The city never sleeps
Tik tok tik Tokyo
Join me on the streets of Tokyo
Tik tok tik Tokyo
Let's have a date, let's dance

In this city of business
City of neon
We are trying to find each other
Find another temporary love

Full of passion, full of disco

Let's dance and let's forget

Our loneliness

Tik tok tik Tokyo

Don't check the time

When you're in Tokyo

Tik tok tik Tokyo

The city never sleeps

Tik tok tik Tokyo

Join me on the streets of Tokyo

Tik tok tik Tokyo

Let's have a date, let's dance

Hours like long days

Don't leave me alone in this hotel

Hours like seconds

Don't leave me alone, let's dance

Disco in NY (2021)

New York never sleeps at night

Let's get lost in the crowd of thoughts

Let's find out if we find each other

Let's get lost in the crowd of thoughts

Let's find out if we find each other

In a big city, big dreams, big noise

I can feel your energy, we've got a long way home
I tune into your energy, long way will soon become short

Let's get lost in the crowd of thoughts
Let's find out if we find each other
Let's get lost in the crowd of thoughts
Let's find out if we find each other

I may never see you again, let me hold your hand
I may never hear your voice again, nor embrace your waist
All alone, all along, all along, day by day
All we know, all we know, all we know, is to wait
And I'm so impatient, in New York, in New York, in New York
You're my inspiration in New York, in New York, in New York, in New York
I can't wait to dance with you again, again, and again
In New York

Let's get lost in the crowd of thoughts
Let's find out if we find each other
Let's get lost in the crowd of thoughts
Let's find out if we find each other

Blood on My Pants (2021)

This is the story of being a woman
You have my blood on your hands
Don't miss me if you now dismiss me
I am a woman and I bleed every month
Don't fuck me, don't fuck with me

If you don't know how to bliss me,
How to please me, how to kiss me

Look at my bum, I have some blood on my pants
This is my blood, I am proud of being a woman
Look at my bum, I have some blood on my pants
This is my blood, I am proud of being a woman

You are looking at me like I was mad
You are discriminating your own blood
My reproductive eggs, my gems, my strength
I am a woman

You are looking at me like I was blind
You are manipulating me 'cause you want to fuck me
You do not even think I do not want you in my bed
I am a woman

I am a woman, I can feel pain
I am a woman, I can give birth
I am a woman, I am not insane
I am a woman, I can walk on this Earth freely

Look at my bum, I have some blood on my pants
This is my blood, I am proud of being a woman
Look at my bum, I have some blood on my pants
This is my blood, I am proud of being a woman

M-Ocean (2021)

The way I used to move:

Slow motion

I choose my own pace

In my thinking process

My pause is the motion

That makes me grow so fast

I'm levitating, I'm shining

Just the way I am

Slow motion

Ocean

Slow motion

M-Ocean

Feel the music in your heart

You can slow down

There is no rush

Make sure you're free

Make sure you're open

Let's groove

Embrace your mood

Your attitude

There's no hard work

That you should do

In order to be happy

Love is not pain, love flows

Like ocean waves

Life should be fun
If you love your life
Slow down, go slow
Your pace, your space
Your choice

Meditation (2021)

It's been stressful that
I've been so stressed
I keep thinking:
"What's the best way to stress, less?"
I try to meditate
I pray every day
I try to meditate
I go to therapy

I try to meditate...
But I feel like I fail...
I try to meditate
I flirt with different men
I try to meditate
I shop till I'm zen
I try to meditate
I drink less wine

I try to meditate
Book a holiday time
I try to meditate
I eat dark chocolate bars
I try to meditate

I get lost in the stars

I try to meditate

I go for a massage

I try to meditate

Scroll through Instagram's mirage

I try to meditate

I take a hot bath

I try to meditate

I try to make cash

I try to meditate

I take beauty treatments too

I try to meditate...

But what else can I do?

How can I meditate

When there's noise all around?

How can I meditate

If time can't be found?

How can I meditate

When my mind's on overload?

Lust & Greed (2021)

This world is an ocean of jealousy

And this ocean has been intoxicated by greed

We've been living in a pandemic state of mind

But the healer of our species is amongst us

We are the ones who can save our world

The smartphone phobia won't destroy our souls, No!

Don't think your prayers in church will bring you blast

If you are praying in the name of lust

How Far (2021)

How far can we go to find the answers?

How far?

All the complications of this world

Overwhelm you

All the medications in this world

Make you sick

And make you cry

You are manipulated by this world

You're getting lost

How far?

How far will we go to find the answers?

How far will we go?

How Long (2021)

How long can I love (you)

Without losing my soul for you?

How far can we be apart

And still feel each other strongly?

Our hands — getting closer

Come on!

Our lips are getting warmer...

It's getting hot in here...

How Lost (2021)

I've lost my soul
I've found my treasure
We've been apart
but I still feel your hand in mine
Another night
without the pleasure
Another month
another time
another longing
We don't belong to any place
How beautiful you are!
You set me free
when I was trapped
I gave you my soul
How patient we were
Another longing...

Fire Me (2021)

Pray with me
This is a prayer to your inner voice
Fire up your life with what you love the most
There are some consequences of your thoughts —
You must decide what path you want to go

Om

Voice out what you want to say to the world!
Voice out what you want to say to the world!

Voice out what you want to say to the world!

Voice out what you want to say to the world!

There's no one who will tell you how to live

Voice out what you want and start following it

There are some consequences of your thoughts —

You must decide what path you want to go!

Om

Voice out what you want to say to the world!

Voice out what you want to say to the world!

Voice out what you want to say to the world!

Voice out what you want to say to the world!

Fire me — I want to feel your fire all over me

I want to feel your fire all over me

I want to feel your fire all over me

This is your voice

This is your weapon of choice

You have a voice —

You have to use it wisely

Your voice is your fire

Your voice is to inspire

Youth & Cracks (2020)

Ladies and gentlemen
We've been living
In a pandemic state of mind
Nothing is clear
Nothing is pure
Misinterpretation of love
Miscommunication
Greed, jealousy, hunger
Breaking down the wall
To build a new one
I was told
I was born in a free country
I'm contemplating all this
While sitting under a big tree
You think you pay
Your price for being happy here
But I can tell you—
The best things in life
Are all free

You are youth and light
You are the one
Who designs yourself
You are youth and light
You are the one
Who makes yourself shine or burn

You are youth and light

You are the one
Who designs yourself
You are youth and light
You are the one
Who makes yourself shine

The crack in integrity
Lets more light in
And that can burn
False identity
Let more light in
Let more light in
Let more light in
Breathe

You are youth and light...

Now, breathe
Now
We are one
We are one
We are the air
Breathe in
Breathe out
Now
We've been living freely
And fully
We are

We are

Muse Me (2019)

I see your eyes and I'm in love with you

Walking distance is still long

We're getting closer with each step we take

We're getting warmer with each breath

Commuters with coffee in their hands

Pass us by like they are blind

They pass us by like they are blind

I smell your skin and I'm in love with you

Walking distance is still long

We're getting closer with each word we say

We're getting louder with each breath

Our neighbours — madly jealous of our freedom —

Knocking on our door

We are young, we are free

We are brave together

We are young, we are free

However far apart — we are home

We're going to the West to meet the East

We want the answers straight away

We're bravely going through our loneliness

We are so close and yet so far...

We are very, very close to each other

And still very far away

We are close, we are far —

Another you, another me, another time

We're getting closer with each step we take

We're getting stronger when we're far apart

We choose the path of least resistance

Another you, another me, another fucking time

We're getting closer with each step we take

We're getting stronger when we're far apart

We choose the path...

We choose the path...

What path do we choose?

What path should I choose?

Self-Muse (2019)

The way you stand

The way you walk

The way you speak — matters

You think you're old...

Take off your shame!

The way you think — matters

You think you've failed...

Pick up the pieces!

The way you fight — matters

You think you cannot...

Yes, sure, you can!

The way you love yourself — matters

What you want is there —

Go and get it

What you want is there

The way you breathe

Dictates your pace

Don't be a slave

To your own self

Instagram Story (2018)

Don't be shy, promote your account

You can reach the world, you can have it all, all

Don't be shy, show me your private life

You can reach the world, you can have it all

Don't be shy, show me your likes

You can reach the world, you can have it all

Don't be shy, you decide who you are

You can reach the world, you can have it all

I feed my feed

You won't defeat me

Just check my feed, check my feed

And feed me with your likes

Instagram story, tell me your story, I'll check it out

Feed me with your perfection

I won't resist the temptation to follow you

Freedom time, you decide who you are

Who are you? Who are you?

Just post your post, repost your post and wait

You will have your crowd, you will wear your crown and feel fulfilled

I feed my feed

You won't defeat me

Just check my feed, check my feed

And feed me with your likes

Instagram story, tell me your story, I'll check it out

Feed me with your perfection

I won't resist the temptation to follow you

My heart is beating really fast

Today I got 5 more followers

And tomorrow I'll have more

Illusion (2018)

I will never, never turn back

My day is empty

like a glass of water on a hot day

My glass is waiting

for you to be filled in
But if you aren't real — just let me know
So I'll adjust my expectations
to the circumstances
I will adjust my expectations
to the circumstances
If you aren't real — just let me know

How can I express
how much I miss those moments
that I haven't had with you?

How can I express
how much I miss
those moments that I haven't had...

There's no reason to be sad
but my heart is lacking something...
I've got stuck thinking of you
I should find someone new
...someone new...

Painted Faces (2017)

I see the rain
I don't know where it's coming from
I see the storm
I feel it coming so strong to my door
I see broken glass

Falling down from my hands

It's a mirror — it's the reflection of my life

Accept everything that you've done so far

Every time when you feel lost

You follow somebody

Every time when you feel lonely

You're trying to find somebody

Somebody...

...you need to find yourself

I see a crowded street

So why can't I see anyone?!

Painted faces — each one follows the crowd

Who does follow you?

Check on Instagram

It's a wonderful world

So why do you look so miserable?

Accept everything that you are right now

Every time when you feel lost

You follow somebody

Every time when you feel lonely

You're trying to find somebody

You see a mirror

But the reflection is not yours

So I'm home
I bless the feeling that penetrates my heart and soul
It's OK if you're not sure if we've met before
I'm home and you're home — are you home?
It's OK if we pass each other on the street tomorrow night
And say nothing
Today we're home
Are you home?
Save your thoughts for your pleasures
I'll save mine for my songs
Finally, the time has come
I'm home
I've come back from a long journey through uncomfortable
It's OK if you don't remember me
It's OK if you don't remember me
You don't have to hide your face anymore
Are you home?
No, you're not!
We've got so much!
We have it all!
Home!

Happy Ending (2017)

You don't have to hide yourself
If you want me, it's OK
If you're sad, don't pretend
That your life's in a good shape

Don't pretend that you don't care
Say it if you are in pain
It's alright, it's OK
I'm not gonna judge you
Please, don't say I think too much
Free yourself and free your mind

There's no happy ending this time
No, no, no, no, no
There's no happy ending this time
No, no, no, no, no

Can you teach me how to fly?
Do it, do it — don't waste my time
Don't!
I believe, but I don't hope
My religion is to love
Something's pulling you towards me...
Come, come closer
Can you do it?
Slowly...
No, no, no — let's do it faster
Can't you do it?!
Please, don't say I think too much
Free yourself and free your mind

There's no happy ending this time
No, no, no, no, no

There's no happy ending this time

No, no, no, no, no

Fuck the Ending (2017)

So I'm home

I've come back from a long journey

Through uncomfortable

It's OK if you don't remember me

I'm home, I'm home

It's OK if you don't remember —

We have met before

It's all right, it's all right

I remember you

Let's not talk about

What's in the past

Let's not focus on what's missing —

As we've got so much...

Finally, the time has come

Everything up to yesterday

Was just a prologue

What's done can't be undone

Save your energy

For what can be done tomorrow

Today is not the end

So I'm home

I bless the feeling

That penetrates my heart and soul...

It's OK if you're not sure

If we've met before

I'm home and you're home

Are you home?

It's OK if we pass each other

On the street tomorrow night

And say nothing

We're home

Save your thoughts for your pleasures

I'll save mine for my songs

Finally, the time has come

Everything up to yesterday was just a prologue

What's done can't be undone

Save your energy

For what can be done tomorrow

Today is not the end

Fuck the ending

Timeless (2017)

How far will we go to find the answers?

How far will we go?

How far will we go?

One more time, one more chance

One more, one more

Distance — make it distant

Love — make it close

How far will we go?

How far will we go to find the answers?

How far?

Your life is short, but it's also long

So how far will we go?

How far will we go to find the answers?

How far?

One more time — try again

One more, one more

We Are Enough (2017)

Every day you look at yourself

You see your scars

You challenge yourself

By looking at your friends

You see their joy

You see their success

And you compare yourself

You blame yourself

And you forget how strong you are

How much love is inside you

How far you've come so far

You forget how beautiful you are
Because you're looking at other people

Oh, my mind, my mind, my mind
Manipulates me all the time
Because I'm scared
I'm scared of my mind
So I give up, I give up
Before I even start
And I compare myself
I blame myself
I regret

And I forget how strong I am
How much love is inside me
How far I've come so far
I forget how beautiful I am
Because I'm looking at other people

Oh, my mind, my mind, my mind
Manipulates me all the time

We won't forget how strong we are
How much love is inside us

PreciouStones (2016)

Don't look at my pain
I'm gonna be strong — as strong as I can

Don't ask me for much
I'll do my best, but I need your touch
Don't think I'm lost — I'm not
But do you even know
How much pain you've caused?
Who is the real you?
How can I be sure
That your love is true?

I don't ask for precious stones
I just want to feel your love
I just want to feel your love
I don't ask for precious stones
I just want to feel your love
I just want to feel your love

Every day on this journey
Takes me closer to understanding you better
Don't be so defensive
Let your feelings lead you —
They'll take you where love lives.
Love.

Every day on this journey
Brings me closer to understanding you better

Vagabond (2015)

Where do I come from?

I don't know yet
Where do I come from?
Well, I don't know yet
I'm slowly learning
myself, slowly
I keep asking
questions to know more
My curiosity is killing me
I'm bored
I've changed places
all my life
They encourage me
to settle down
I don't need it

I'm humming
I'm running
I'm smoking
I'm crying
I'm not as cunning
as Bond
I'm a vagabond

Being like a stone
helps a lot
Everything is painful
when you are so soft
My mentality

gets out of control

My tears fall

I am obsessed

with being free

I don't really care

if you don't agree

I don't know

about religion

I believe in art

Trust your heart

I'm humming

I'm running

I'm smoking

I'm crying

I'm not as cunning

as Bond

I'm a vagabond

You won

but your friends

have gone

You are lost

but you've learnt

the most

Dread?

There's nothing to fret

There're so many chords

to replace the words

Dance

when you are tense

Breathe

when you see a thief

I'm humming

I'm running

I'm smoking

I'm crying

I'm not as cunning

as Bond

I'm a vagabond

I'm humming

I'm running

I'm smoking

I'm crying

I'm not as cunning

as Bond

I'm a vagabond

I'm a vagabond

I'm a vagabond

I'm a vagabond

I'm a vagabond

Ice Cream (2015)

I don't want to put too much on you

But ever since we met, I can't get through —

Through breathing, through eating

Through fitting in this world

Without you

Without you

Without you

You told me a few secrets about living life —

About the illusion created by time

The illusion of distance

The illusion of longing for somebody

Dance in the rain

Share your joy, share your pain

Dance in the rain

Share your joy, share your pain

Dance in the rain

Share your joy, share your pain

Dance in the rain

Share your joy, share your pain

Don't tell me you want to come to me —

I don't buy that shit

I prefer your dreams:

Your sweet dreams

Your dark dreams

Your deep dreams with me

I still believe in our paradise

I still want to feel that I'm mesmerised

But kisses on WhatsApp

Lead to frustration

I don't want to be

Addicted to my own inspiration

Kisses on WhatsApp

Lead to frustration

I don't want to be

Addicted to my own inspiration

Dance in the rain,

Share your joy, share your pain...
